- *Dividend increased for the 23rd consecutive year*
- *Full year organic loan growth of 4%*
- *Full year operating EPS improves to \$2.30 per share*

SYRACUSE, N.Y. — January 20, 2016 — Community Bank System, Inc. (NYSE: CBU) reported fourth quarter 2015 net income of \$20.1 million, compared with \$23.1 million earned in the fourth quarter of 2014. Diluted earnings per share totaled \$0.47 for the fourth quarter of 2015, nine cents per share lower than the \$0.56 per share reported in the fourth quarter of 2014, and included \$5.7 million of acquisition expenses, or nine cents per share. Full year 2015 net income of \$91.2 million, or \$2.19 per share, was 1.4% below 2014's earnings per share of \$2.22, and included \$7.0 million of acquisition expenses, or \$0.11 per share, while 2014's full year results included \$0.1 million of acquisition expenses and a \$2.8 million litigation settlement charge, or \$0.05 per share. Operating earnings per share, which adds back the tax-effected impact of acquisition expenses and the litigation settlement charge was \$2.30 in 2015 and was 1.8%, or \$0.04 per share, above 2014's operating earnings of \$2.26 per share.

“Our record annual operating results were driven by productive earning-asset growth, a continuation of excellent credit quality, and disciplined expense management,” said President and Chief Executive Officer Mark E. Tryniski. “After a very slow start to our lending activity in the first quarter of 2015, we were able to generate solid volume growth in each of the last three quarters, resulting in full-year organic loan growth of four percent. We completed the acquisition of Oneida Financial Corp. in early December 2015, which further extends and strengthens our Central New York service area by expanding our market presence in the Syracuse and Utica-Rome metropolitan areas. This transaction also adds to our product and service offerings in insurance, benefits administration, and wealth management, while combining two organizations with similar cultures and the same history of exceptional service to our customers and our communities.”

Total revenue for the fourth quarter of 2015 was \$98.1 million, an increase of \$6.5 million, or 7.0%, over the prior year quarter, and included the activities of Oneida Financial Corp. (“Oneida Financial” or “Oneida”) after December 4, 2015. The higher revenue was generated as a result of a 9.2% increase in average earning assets and growth in noninterest income from acquired and organic sources, which more than offset a 19 basis-point reduction in net interest margin from the prior year quarter. Fourth quarter net interest income was \$65.0 million, an increase of \$3.2 million, or 5.2%, compared to the fourth quarter of 2014. Modestly lower funding costs were offset by a 20-basis point decline in earning asset yields, the result of lower interest rates on investment securities. Average loan balances grew \$235.9 million, or 5.6%, and average loan yields remained stable at 4.43% year-over-year, resulting in a \$2.4 million increase in quarterly loan interest income. Investment income was \$1.0 million higher than the fourth quarter of 2014, as average investment securities (including cash equivalents) increased by \$378.0 million, more than offsetting the yield decline of 44 basis points, principally the result of the decision to pre-invest and retain the net liquidity provided by the Oneida Financial transaction earlier in 2015. Wealth management and insurance services increased \$2.5 million, or 57.2%, compared to fourth quarter of 2014, principally from the Oneida Financial acquisition. Fourth quarter revenues from employee benefit services increased \$0.7 million, or 6.6% year-over-year, capping off another record annual performance. Revenues from mortgage banking and other services were in-line with the fourth quarter of 2014, and were \$1.0 million lower than the third quarter's results which included the Company's annual dividend from certain pooled retail insurance programs of \$0.7 million, or just over one cent per share. Quarterly deposit service fees increased 0.8% year-over-year, principally from the Oneida acquisition, as slightly higher core card-related revenues were more than offset by the continuing trend of lower fees from account overdraft protection programs.

Fourth quarter 2015 operating expenses of \$65.0 million increased \$8.3 million versus the fourth quarter of 2014, and included \$5.7 million of acquisition expenses, as well as the core operating expenses of the Oneida transaction since December 4, 2015.

The fourth quarter 2015 provision for loan losses of \$3.3 million was \$0.8 million higher than the fourth quarter of 2014, and reflected net charge-offs of \$3.5 million, including one large commercial net charge-off of \$1.0 million, and organic loan growth of \$95.2 million during the quarter. The one large commercial net charge-off in the quarter related to a relationship that had been partially reserved for in a prior quarter.

The Company's effective tax rate for the fourth quarter of 2015 was 32.7%, compared to the 28.8% rate in the fourth quarter of 2014, with the majority of the increase related to certain statutory changes to state tax rates and reporting structures enacted over the past two years.

Financial Position

Average earning assets of \$7.30 billion for the fourth quarter of 2015 were up \$614.0 million from the fourth quarter of 2014, and were \$178.7 million higher than the third quarter of 2015. Compared to the prior year, quarterly average earning asset balances included growth of \$235.9 million in average loan balances, including the impact of the acquired Oneida loans for the month of December, while average investment securities and interest-earning cash balances increased by \$378.0 million, predominantly from incremental investment purchases related to the net liquidity provided by the Oneida Financial acquisition. Average deposit balances grew \$365.1 million, or 6.1%, compared to the fourth quarter of 2014. Average borrowings in the fourth quarter of 2015 of \$607.8 million were \$201.2 million higher than the prior year quarter, reflective of the liquidity pre-investment decision related to the Oneida Financial transaction.

Ending loans at December 31, 2015 increased \$565.2 million, or 13.3% year-over-year, reflecting productive organic growth in each of the Company's lending portfolios, and \$396.1 million of loans acquired in the Oneida transaction. Investment securities totaled \$2.85 billion at December 31, 2015, up \$335.0 million from the end of 2014. Total deposits of \$6.87 billion at year-end were \$938.2 million above the end of 2014, and included \$678.8 million of deposits acquired in the Oneida transaction. Ending borrowings of \$403.4 million were \$256.8 million lower than the end of the third quarter, reflective of the payoff of certain short-term instruments in December after the Oneida closing, which were replaced by acquired deposit funding.

Shareholders' equity of \$1.14 billion at December 31, 2015 was \$152.7 million, or 15.5%, higher than the prior year-end, due to strong earnings generation and capital retention over the last four quarters, and the issuance of 2.38 million shares of common stock, or \$102.2 million, reflecting the equity portion of the consideration in the Oneida transaction. The Company's net tangible equity to net tangible assets ratio was 8.59% at December 31, 2015, compared to 8.92% at the end of 2014, reflective of the growth of the Company's balance sheet, including the intangible assets created, in the Oneida acquisition. The Company's Tier 1 leverage ratio rose to 10.32% for the current quarter, up 36 basis points from the fourth quarter of 2014.

As previously announced, in December 2014 the Company's Board of Directors approved a stock repurchase program authorizing the repurchase of up to 2.0 million shares of the Company's common stock during a twelve-month period starting January 1, 2015. Such repurchases may be made at the discretion of the Company's senior management depending on market conditions and other relevant factors and will be acquired through open market or privately negotiated transactions as permitted under Rule 10b-18 of the Securities Exchange Act of 1934 and other applicable legal requirements. The Company repurchased 265,230 shares of its common stock in the first quarter of 2015. No additional shares were repurchased in the last three quarters of 2015. In December 2015, the Company's directors approved a similar program for 2016, authorizing the repurchase of up to 2.2 million shares of the Company's common stock.

Asset Quality

The Company's asset quality metrics continue to be favorable and stable and illustrate the long-term effectiveness of the Company's disciplined risk management and underwriting standards. Net charge-offs were \$3.5 million for the fourth quarter, compared to \$2.5 million for the fourth quarter of 2014 and \$1.6 million for the third quarter of 2015. The fourth quarter's results included a net charge-off of \$1.0 million related to one commercial relationship that had been partially reserved for in a prior quarter. Net charge-offs as an annualized percentage of average loans measured 0.31% in the fourth quarter of 2015, compared to 0.23% in the prior year fourth quarter and 0.15% in the third quarter of 2015. Full year 2015 net charge-offs were \$6.4 million, or 0.15% of average loans, consistent with \$6.2 million of net charge-offs in 2014, which was also 0.15% of average loans. Nonperforming loans as a percentage of total loans at December 31, 2015 were 0.50%, compared to 0.56% of total loans at December 31, 2014. The total loan delinquency ratio of 1.16% at the end of the fourth quarter was down 30 basis points from the end of the fourth quarter of 2014. The fourth quarter provision for loan losses of \$3.3 million was \$0.8 million, or 31.5%, higher than the fourth quarter of 2014. The allowance for loan losses to nonperforming loans was 190% at December 31, 2015, comparable with the 190% and 181% levels at the end of the fourth quarter of 2014 and the third quarter of 2015, respectively.

Dividend Increase

In August the Company declared a quarterly cash dividend of \$0.31 per share on its common stock, marking its 23rd consecutive year of dividend increases. President and Chief Executive Officer, Mark E. Tryniski, commented, “The payment of a meaningful and growing dividend is an important component of our commitment to provide consistent and favorable long-term returns to our shareholders. The increase reflected the continued strength of both our current operating performance and capital position.” The one cent increase in the Company’s quarterly cash dividend over the same quarter of the prior year, or 3.3% higher, represents an annualized yield of 3.4% based on its’ closing price of \$36.13 on January 19, 2016.

Oneida Financial Corp

In the first quarter of 2015, the Company announced the signing of a definitive agreement to acquire Oneida Financial Corp., the parent company of Oneida Savings Bank. Under the terms of the agreement, shareholders of Oneida Financial Corp. received merger consideration equivalent to 0.5635 shares of Community Bank System, Inc. common stock or \$20.00 in cash for each share of Oneida Financial Corp. common stock they held, subject to the election and proration provisions of the agreement providing for an overall 60% stock and 40% cash apportionment. The transaction was completed on December 4, 2015. The total consideration for the acquisition was approximately \$158.5 million, comprised of the issuance of 2.38 million shares of Community Bank System, Inc. common stock and \$56.3 million in cash. The Company acquired approximately \$399 million of loans, \$308 million of cash equivalents and investment securities, and \$699 million of deposits, as well as the business assets and activities associated with Oneida’s insurance, wealth management and employee benefit services businesses.

CBU Highly Ranked in Forbes Analysis

Forbes.com published its seventh annual ranking of the country’s 100 largest banks in early January 2015.
