COMMUNITY BANK SYSTEM REPORTS FOURTH QUARTER AND FULL YEAR 2018 RESULTS

SYRACUSE, N.Y. — January 23, 2019 — Community Bank System, Inc. (NYSE: CBU) reported fourth quarter 2018 net income of \$40.8 million and fully diluted earnings per share of \$0.78. This compares to \$72.0 million in net income or \$1.40 per share for the fourth quarter of 2017. The fourth quarter 2017 results included a \$38.0 million, or \$0.74 per share, one-time gain from the revaluation of net deferred tax liabilities related to the enactment of the Tax Cuts and Jobs Act in December 2017. Excluding this one-time tax benefit and acquisition expenses, fourth quarter 2018 operating earnings per share (non-GAAP) were \$0.11, or 16.4%, above the fourth quarter of 2017. Full year diluted earnings per share totaled \$3.24 in 2018, compared to \$3.03 in 2017. Full year 2018 diluted operating earnings per share (non-GAAP) of \$3.23 were \$0.59, or 22.3%, above the \$2.64 per share of operating earnings generated in 2017.

“Our strong fourth quarter and 2018 performance reflected a full year of operating leverage from the 2017 acquisition of Merchants Bancshares and Northeast Retirement Services, as well as continued solid growth in our non-banking fee businesses. Fourth quarter fully-diluted operating earnings per share increased \$0.11, or 16.4%, over 2017 despite a reduction in noninterest revenues of \$3.1 million, or \$0.05 per share, related to Durbin amendment mandated debit interchange price restrictions,” said Mark E. Tryniski President and Chief Executive Officer. “Total revenues for 2018 of \$569.1 million were up \$51.0 million or 9.8% over 2017, while operating earnings increased 22.3%, or \$0.59 per share, despite a decrease of \$0.11 per share in banking-related noninterest revenues related to the Durbin amendment. The Company’s historic discipline around deposit funding and asset quality was also evident in the 2018 results with average cost of deposits of 0.13%, and total net charge-offs of 0.15% of average loans. Overall, it was a very solid effort that positioned the organization for continued strong performance in 2019. Also, as announced yesterday, we have entered into a definitive agreement to acquire Kinderhook Bank Corp. which will provide an enhanced banking presence in five additional Upstate New York counties around the Capital District. The greater Albany region offers attractive demographics and we’re excited by the prospect of having a more significant presence in this area.”

Total revenues for the fourth quarter of 2018 were \$141.6 million, an increase of \$1.7 million, or 1.2%, over the fourth quarter of 2017. The Company recorded a \$1.4 million, or 1.6%, increase in net interest income and a \$0.3 million, or 0.5%, increase in noninterest revenues. The increase in net interest income was due to a 22 basis point increase in the yield on loans, offset in part by a decrease in average earning assets, lower investment securities yields and higher funding costs. Nonbanking noninterest revenues increased \$2.5 million, or 7.3%, due to organic revenue growth in our employee benefit services segment, as well as acquired and organic growth in our wealth management and insurance businesses. This increase in nonbanking noninterest revenues was partially offset by a decrease in banking noninterest revenues of \$2.2 million, or 11.2%, due almost entirely to Durbin amendment mandated debit interchange price restrictions.

On a linked quarter basis, total revenues decreased \$0.4 million, or 0.3%. Net interest income was up \$1.2 million, or 1.4%, and noninterest revenues were down \$1.6 million, or 2.8%. The Company's tax equivalent net interest margin increased six basis points from 3.71% in the third quarter of 2018 to 3.77% in the fourth quarter of 2018. This included two basis points of improvement due to the Company's receipt of the semi-annual Federal Reserve Bank dividend payment totaling \$0.4 million. Banking-related noninterest revenues were down \$0.5 million, or 2.9%, and nonbanking noninterest revenues were down \$0.6 million or 1.5%. In addition, during the third quarter of 2018, the Company recorded \$0.7 million in unrealized gains on equity securities and \$0.3 million in loss on prepayment of debt securities associated with the accelerated amortization of debt issuance costs, resulting in a \$0.4 million net gain on these activities. This compares to \$0.1 million of unrealized losses on equity securities during the fourth quarter.

The Company recorded a \$2.5 million provision for loan losses in the fourth quarter 2018. This compares to a \$5.4 million provision for loan losses recorded in the fourth quarter of 2017 and \$2.2 million in the linked third quarter of 2018. The non-performing loan to total loans ratio was 0.40% at the end of the fourth quarter of 2018, down from 0.44% at the end of the fourth quarter of 2017 and consistent with linked third quarter results. The total loan delinquency ratio was 1.00% at the end of the fourth quarter of 2018. This is 10 basis points lower than the prior year fourth quarter end and seven basis points higher than the linked third quarter.

Total operating expenses for the fourth quarter of 2018 were \$87.6 million. This compares to \$86.1 million in total operating expenses (excluding acquisition expenses of \$0.8 million) recorded in the fourth quarter of 2017. The \$1.5 million, or 1.7%, increase in total operating expenses was due to higher amounts of salaries and employee benefits and occupancy and equipment expenses, partially offset by a \$0.6 million decrease in amortization of intangible assets.

On a linked quarter basis, total operating expenses increased \$2.4 million, or 2.8%. During the third quarter of 2018, the Company recovered \$0.8 million of vendor contract termination charges, which were recorded as an acquisition expense during the second quarter of 2017. Excluding this recovery, total operating expenses increased \$1.6 million, or 1.8%. Salaries and employee benefits expense increased \$1.0 million including one additional day of payroll, while occupancy and equipment expense increased \$0.4 million due to seasonal fluctuations and other expenses were \$0.2 million higher.

The Company recorded \$87.4 million in net interest income during the fourth quarter of 2018. This represents an increase of \$1.4 million, or 1.6%, compared to the fourth quarter of 2017. Interest income on loans was up \$3.6 million, or 5.2%, while interest income on investments, including cash equivalents, was down \$0.8 million, or 3.9%. Interest expense increased \$1.4 million as deposit and borrowing costs increased, reflective of higher market interest rates for these funding sources. The net interest margin increased three basis points, from 3.74% in the fourth quarter of 2017 to 3.77% in the fourth quarter of 2018. Earning asset yields increased 10 basis points, from 3.89% in the fourth quarter of 2017 to 3.99% in the fourth quarter of 2018. Average loan yields increased 22 basis points from 4.43% to 4.65% over the same periods due largely to an increase in market interest rates, including four 25 basis point increases in the Prime rate. Similarly, the yield on cash equivalents increased 66 basis points from 1.19% in the fourth quarter of 2017 to 1.85% in the fourth quarter of 2018. Conversely, the yield on investment securities decreased 19 basis points, from 2.81% to 2.62% between comparable quarterly periods. This was largely due to a decrease in the tax-equivalent yield on non-taxable municipal securities caused by a drop in the statutory Federal corporate tax rate between the periods. The Company's cost of funds increased seven basis points, from 0.16% in the fourth quarter of 2017 to 0.23% in the fourth quarter of 2018. The Company's cost of deposits was 0.16% during the fourth quarter of 2018, versus 0.10% in the fourth quarter of 2017.

Net interest income increased \$1.2 million, or 1.4%, on a linked quarter basis. Interest income on loans was up \$1.1 million due primarily to an eight basis point increase in the yield. Interest income on investment securities, including cash equivalents, was up \$0.5 million primarily due to receipt of the semi-annual dividend payment from the Federal Reserve Bank. Net interest margin increased six basis points from 3.71% in the third quarter of 2018 to 3.77% in the fourth quarter. The yield on earning assets increased eight basis points between the linked quarters to 3.99% from 3.91%, while the total cost of funds increased two basis points to 0.23% from 0.21%.

The Company generated \$13.7 million of wealth management and insurance services revenues in the fourth quarter of 2018. This represents a \$1.3 million, or 10.1%, increase over the fourth quarter 2017 revenues of \$12.4 million. During the fourth quarter of 2017 and the first two quarters of 2018, the Company acquired four small insurance and wealth management practices contributing to revenue growth. Employee benefit services revenues of \$23.5 million, increased \$1.3 million, or 5.6%, from the fourth quarter of 2017. These results were attributable to organic increases in the number of supported plans and related participant levels. On a linked quarter basis, wealth management and insurance services revenues were down \$0.8 million due to seasonal and market-related influences, and employee benefits services revenues were up \$0.2 million.

The effective tax rate for the fourth quarter of 2018 was 20.7%. This was down from a 28.6% effective tax rate in the fourth quarter of last year, excluding the \$38.0 million one-time gain from the revaluation of net deferred tax liabilities. The decrease in the effective tax rate was largely attributable to the application of the lower federal tax rate due to the Tax Cuts and Jobs Act passed in the fourth quarter of 2017. The effective tax rate for the full year of 2018 was 20.8%.

The Company also provides supplemental reporting of its results on an “operating,” “net adjusted” or “tangible” basis, from which it excludes the after-tax effect of amortization of core deposit and other intangible assets (and the related goodwill, core deposit intangible and other intangible asset balances, net of applicable deferred tax amounts), accretion on non-impaired purchased loans, expenses associated with acquisitions, the unrealized gain (loss) on equity securities, loss on debt prepayment and the one-time benefit from the revaluation of net deferred tax liabilities. The amounts for such items are presented in the tables that accompany this release. Although these items are non-GAAP measures, the Company’s management believes this information helps investors understand the effect of acquisition and other non-recurring activity in its reported results. Diluted adjusted net earnings per share were \$0.81 in the fourth quarter of 2018, compared to \$0.71 in the fourth quarter of 2017, a 14.1% increase.

Financial Position

Average earning assets were down \$26.2 million, or 0.3%, on a linked quarter basis, from \$9.33 billion during the third quarter of 2018 to \$9.31 billion during the fourth quarter of 2018. Average loan balances during the fourth quarter were \$6.28 billion, down \$13.6 million, or 0.2%, from the third quarter. Average deposit balances were down \$57.9 million, or 0.7%, from third quarter levels, due largely to increased utilization of certain off balance sheet products, which increased \$93.9 million over the same period. Ending deposits were also down \$141.5 million or 1.7%. Average borrowings in the fourth quarter of 2018 of \$389.4 million, were down \$4.1 million or 1.0% from the third quarter average of \$393.5 million.

Ending loans at December 31, 2018 were \$6.28 billion. This was down \$19.8 million or 0.3% from the end of the third quarter, but up \$24.4 million, or 0.4%, when compared to December 31, 2017. During the fourth quarter and consistent with seasonal expectations, outstanding balances in our consumer indirect, consumer direct and home equity portfolios decreased \$28.5 million. This was partially offset, by a \$15.4 million increase in consumer mortgage balances. Business lending was down \$6.6 million, or 0.3%, as principal reductions slightly exceeded new loan advances and originations during the quarter. The increase in ending loans on a comparative year end basis was largely driven by growth in the Company’s consumer indirect and consumer mortgage loan portfolios.

Investment securities totaled \$2.98 billion at December 31, 2018, up \$33.6 million, or 1.1%, from the end of the linked third quarter of 2018, but down \$99.7 million or 3.2% from December 31, 2017. The net unrealized loss in this portfolio was \$16.0 million at December 31, 2018, as compared to a \$52.8 million unrealized loss at September 30, 2018, down \$36.8 million during the fourth quarter due to changes in market interest rates. These compare to a net unrealized gain of \$23.9 million at December 31, 2017. The portfolio transitioned from a net unrealized gain position in December 2017 to a net unrealized loss position during early 2018 due to an increase in market interest rates. The effective duration of the portfolio was 3.3 years at the end of the fourth quarter.

Shareholders' equity of \$1.71 billion at December 31, 2018 was \$79.5 million, or 4.9%, higher than the prior year period. The Company's net tangible equity to net tangible assets ratio was 9.69% at December 31, 2018, up from 8.61% a year earlier and 9.13% at the end of the third quarter of 2018. The Company's Tier 1 leverage ratio was 11.09% at the end of the fourth quarter, up from 10.00% a year earlier. These results are primarily a result of strong earnings generation and capital retention over the last four quarters.

As previously announced in January 2018, the Company's Board of Directors approved a stock repurchase program authorizing the repurchase of up to 2.5 million shares of the Company's common stock during a twelve-month period starting January 1, 2018. Such repurchases may be made at the discretion of the Company's senior management based on market conditions and other relevant factors and will be acquired through open market or privately negotiated transactions as permitted under Rule 10b-18 of the Securities Exchange Act of 1934 and other applicable legal requirements. There were no shares repurchased pursuant to the program in 2018. In December 2018, the Company reauthorized a new repurchase program for 2019 for up to 2.5 million shares of the Company stock.

Asset Quality

The Company's asset quality metrics continue to illustrate the long-term effectiveness of the Company's disciplined risk management and underwriting standards. Total net charge-offs were \$3.3 million for the fourth quarter. This compares to \$5.8 million in the fourth quarter of 2017, \$3.1 million of which was related to a charge-off recorded on a single credit relationship. Net charge-offs as an annualized percentage of average loans measured 0.21% in the fourth quarter of 2018 and 0.37% in the fourth quarter of 2017. Nonperforming loans as a percentage of total loans at the end of the fourth quarter and linked third quarter were 0.40%, as compared to 0.44% at December 31, 2017. The total loan delinquency ratio of 1.00% at the end of the fourth quarter was 10 basis points lower than the level one year earlier. The fourth quarter provision for loan losses of \$2.5 million was \$2.9 million lower than the fourth quarter of 2017, and \$0.3 million higher than the third quarter of 2018. The allowance for loan losses to nonperforming loans was 197% at December 31, 2018, compared with 201% and 173% at the end of the third quarter of 2018 and fourth quarter of 2017, respectively. On a full year 2018 basis, the Company recorded 0.15% of net charge offs compared to 0.18% for the full year of 2017. The Company's allowance for loan losses was \$49.3 million or 0.78% of total loans outstanding at December 31, 2018, as compared to \$47.6 million and 0.76% of total loans outstanding at the end of the prior year.

Dividend Increase

During the fourth quarter of 2018, the Company declared a quarterly cash dividend of \$0.38 per share on its common stock. The Board of Directors raised the cash dividend by \$0.04 per share, or 11.8%, during the third quarter of 2018 which marked the 26th consecutive year of dividend increases for the Company. President and Chief Executive Officer, Mark E. Tryniski, commented, "The payment of a meaningful and growing dividend is an important component of providing consistent and favorable long-term returns to our shareholders. The increase reflected the continued strength of our current operating performance and capital position." The four cent, or 11.8%, increase in the Company's quarterly cash dividend over the same quarter of the prior year brought the dividend to a level that represents an annualized yield of 2.4% based upon the \$63.29 closing price of the Company's stock on January 22, 2019.

Kinderhook Bank Corp.

On January 22, 2019, the Company announced that it had entered into a definitive agreement to acquire Kinderhook Bank Corp. ("Kinderhook"), parent company of National Union Bank of Kinderhook headquartered in Kinderhook, New York, for \$93.4 million in cash. The acquisition will extend the Company's branch footprint in the greater Capital District region of New York where the Company started a business banking operation in the first quarter of 2018. Upon completion of the merger, Community Bank will add 11 branch locations in the region with approximately \$640 million of assets and deposits of \$560 million. The Company expects to complete the acquisition late in the second quarter of 2019.
